

**SPRING MILLINERY**

**Specials**

For the first four days of May  
1st, 2nd, 4th and 5th only,  
This must be a clean sweep of  
my entire Spring Millinery.  
It will include some of our ex-  
quisite pattern hats and hats  
of all of the newest designs,  
colorings and shapes.

Hats will be shown at the  
following prices:  
\$4.95, \$6.95, \$10.00

You must see these values  
to appreciate what  
they are.

## The Bartley Millinery

312 West Central Avenue

### STOCKHOLDERS OF AMERICAN LUMBER COMPANY MEET

Meeting Here Tomorrow Morning Expected to Have Important Bearing on Future of Big Industry.

Judge John Baron Burk held a short session of the probate court this morning. The claim of W. H. Bahn against the estate of Mrs. Euclid McCellan was approved. Alvaro Chavez filed his report as guardian of Desideria Garcia, and Laura B. Van Meter filed her final account as executrix of the last will of E. B. Van Meter.

#### Cured of Chronic Constipation.

"For twenty years I suffered with chronic constipation," says C. W. Robertson, of Cordova, S. C. "In May, 1898, it had assumed a more serious form, resulting in indigestion, piles and neurasthenia. Life seemed a burden to me. Two famous physicians and one specialist with all their drastic drugs failed to help me. A friend advised me to give Chamberlain's Tablets a trial, which I did, and am pleased to say two bottles of them cured me." For sale by all druggists.

### HARD TO KEEP THE METZ DITCH OPEN CITY FINDS

People Fill Acequia Which Engineers Gladding Is Cleaning Out in Accordance With Court's Ruling.

Trouble is being experienced by City Engineer Gladding in getting the courts acequia which furnished the basis for the Metz damage suit against the city open. Several weeks ago the engineer cleaned out the ditch to get the water started again, as required under the court's decision, but people living along the ditch have been filling it in at places to afford crossings for their wagons.

The city engineer said today that he would devote special attention now to the ditch in order to get it clear enough for the passage of water, after which anyone interfering with the flow would get into trouble. Mr. Gladding consulted with Mayor Boatright regarding the matter, and it was agreed that although legal action might be taken against those who are filling the ditch now, the situation could be met with less expense and bother by quick work in clearing the acequia and turning in the water.

Mr. Gladding called the mayor's attention to the fact that a number of people had ditches cut across the streets in the northwestern part of the city, and suggested that it would be a good idea to make some sort of record of the streets and ditches now existing to guard against possible claims of ditch rights growing out of acequias cut in the future. A ditch cut without any rear right across the street at this time, might, it was pointed out by the engineer, lead to a claim which the city would have to contest at some future time.

The mayor agreed with Mr. Gladding that some action was needed, and took the matter under advisement. As soon as some legal form is devised to meet the conditions, the ditches now running across the streets, especially those of doubtful legality, will be recorded.

L. W. GALLES WILL GO INTO BUSINESS IN FARMINGTON N. M.

L. W. Galles, widely known in business, social and fraternal circles in this city, has resigned as agent of the Occidental Insurance company to go into business in Farmington. He has joined with the management of the Stupin Mercantile Company of Farmington in buying the Pierce Mercantile company at that place, and the two stores have been consolidated under the Stupin name. Mr. Galles will manage the consolidated business. He and Mrs. Galles will go to Farmington tonight to take up their residence.

### BOATRIGHT BACKS UP ON LEWIS ORDER

Mayor Says While Office Is Declared Vacant He Will Put Matter Up to City Council.

**EXPECTED COUNCIL WILL REFUSE TO SUSTAIN**

Believed Also that Ordinance Does not Apply Since All City Attorney's Time Is not at City's Disposal.

The city council is to have a chance to pass on the attempted summary removal from office of City Attorney John C. Lewis yesterday afternoon by Mayor D. H. Boatright. The mayor, who declared that office of city attorney vacant because Mr. Lewis went to Santa Fe and got a court order restraining the mayor and his chief of police appointee, George H. Thomas, from attempting to interfere with Chief McMinn in the discharge of his duty, said today that he would put the matter up to the city council at its next meeting.

The mayor based his action against Mr. Lewis on Section 529 of the revised ordinances of the city, which reads as follows:

"The mayor may, in his discretion, grant temporary leave of absence to any officer, upon good cause shown, and no officer shall leave the city for any cause without such leave of absence from the mayor, under the penalty of forfeiture of his office."

Mr. Lewis went to Santa Fe Monday night, after the riotous scene before the station house when Thomas attempted to take possession of the police department under a "commission" furnished him by Mayor Boatright. He went in the capacity of Methodist Sanitarium, and has given climate and the ordinary methods every opportunity to effect a cure.

The history of his disease dates back several years; for a long time he was affected by catarrh. Some two years ago he contracted a heavy cold which left him with a terrible cough. He had several hemorrhages and arrived here with all the pronounced symptoms of an advanced case of tuberculosis.

Mr. Boatright has only taken a few treatments, but the results are certainly gratifying to him, and he will be glad to tell all who are interested of the effects of this remarkable treatment.

The wonderful Inhalatorium is an air-tight cabinet where highly medicated vapor under a steam pressure of from fifteen to twenty pounds is inhaled directly into the weak spots of the lungs, killing the millions of germs that feed upon the delicate tissue, producing an immediate effect, thus assisting in restoring the patient to health.

If you are a sufferer you are invited to call. The doctor will carefully examine you free of charge, and if he finds that your condition will yield to the influence of our new treatment, then he will take your case.

No incurable cases accepted, for treatment.

Office, Suite 5, N. T. Armijo Building, corner Second and Central. Hours, 9 a.m. to 8 p.m. Phone 115. Residence phone 1623.

### COL SELLERS' HELP SOUGHT CHECKING FOREST FIRES

with it; I will merely witness the signature of the mayor.

**Gibson, Not Gilbert.**

It was Councilman C. G. Gibson, and not Councilman S. S. Gilbert, of the Third ward, who voted with Mr. Boatright against adjournment at the councilmanic meeting Monday night. Mr. Gilbert is firmly aligned with those who opposed the mayor's plan to jam Thomas in office, and he cast his vote with the other five members who refused to sanction the Boatright plan.

### EXTRAORDINARY RESULTS BEING PRODUCED

Dr. Schwentker Is Having Marked Success.

Dr. Schwentker, who recently installed the most elaborate equipment known to medical science for the special treatment of germ diseases of the air passages, by inhalation, is meeting with marked success. Daily demonstrations are now being made of its wonderful effects on a number of cases who have tried the ordinary method for the cure of tuberculosis and have found that climate alone is not sufficient to kill the germs of this most dreaded disease.

His best endorsement comes from those who are now taking this modern treatment. Mr. H. S. Eldredge is a gentleman, 31 years of age, who came to this city some eighteen months ago from the northern part of Ohio in the search for health. He resides at the Methodist Sanitarium, and has given climate and the ordinary methods every opportunity to effect a cure.

The history of his disease dates back several years; for a long time he was affected by catarrh. Some two years ago he contracted a heavy cold which left him with a terrible cough. He had several hemorrhages and arrived here with all the pronounced symptoms of an advanced case of tuberculosis.

### COL SELLERS' HELP SOUGHT CHECKING FOREST FIRES

Apache Supervisor Working to Reduce Number of Conflicts This Year; Points for Campers.

Col. D. K. B. Sellers, president of the Ocean-to-Ocean Highway association, has been asked by his friend John D. Guthrie, supervisor of the Apache National Forest in Arizona, to urge all his motoring acquaintances and others who may go through or camp in the forest this year, to be particularly careful in guarding against starting forest fires. There were 74 fires in the Apache forest last year, and the supervisor is determined to reduce that number in 1914.

A letter of warning regarding fires which he has sent out, reads in part as follows:

"The forest service is working to protect the forests, and we ask you as a forest user to lend a helping hand. We need your assistance and co-operation to help in keeping fire from getting started. Will you help? Will you be careful with your camp fire? Dig a pit for it, or clear trash from all sides of it. Be sure your camp fire is out before leaving it. Be as careful with fire in the forest as you would in your own home. Be sure your match is out before you throw it away. Matches have heads, but they don't use 'em to think with."

"Knock out your pipe ashes and throw your cigarette or cigar stubs where they can't start a fire. Cigarette ends and cigar stubs have no heat at all—you must think for them! Would you put them in your pocket still burning?" No—Then don't put them in the forest burning.

"Bear in mind that an ounce of prevention is worth weeks of fire fighting. When you see a fire, if you can't go to it yourself and put it out, will you notify the forest office?"

### BIG VICTORY FOR WATER USER IN TWO CASES

Company Must Change Its Manner of Fixing Rates and Cannot Compel Householders to Lay Pipes.

Victory has been won by water users in two suits brought by the city, through City Attorney John C. Lewis, in the interest of the consumers against the Water Supply company. By decision of the supreme court in the cases, word of which was received by Mr. Lewis last night, the water users will save thousands of dollars yearly.

"Where a franchise granted to a water company," says the decision, "provides that the company shall have the right to make rules and regulations to be approved by the city council, and the company contends that it has adopted and enforced a rule which requires the consumer to pay the cost of making connections with its mains, before the question can arise as to whether the rule in question amounts to a construction of the contract by the city, it is incumbent upon the company to show that the city cannot give its approval to the same."

"The decisions are noteworthy legal victories for City Attorney Lewis. In two other cases, in which the contentions of the water company were upheld, the points involved were unimportant.

#### Are Colds Catching?

It is claimed that most colds are catching as measles and that one should avoid the association of any one who has a cold. Never permit anyone who has a cold to kiss your child. Avoid crowded cars and poorly ventilated sleeping rooms. Then when you take a cold, get rid of it as quickly as possible. Chamberlain's Cough Remedy used as directed will enable you to throw it off quickly and permanently. That preparation always cures and is pleasant and safe to take. For sale by all druggists.

Bunch and pole butter beans, per basket, 20c per pound. — E. W. FEE.

### HARMONY LODGE MARKS ANNIVERSARY OF ODDFELLOWSHIP

Harmony Lodge, I. O. O. F., celebrated the 97th anniversary of Odd Fellowship last night. Members and friends attended the affair in large numbers.

Rev. Samuel E. Allison was the speaker of the evening. He delivered an eloquent address on "Friendship." There was an instrumental and vocal program after which a supper was served in the banquet room. Dancing followed the supper.

Arrangements for the affair were made by a committee of which W. M. Twibbs was chairman.

#### Gems Will Out.

Stiles—I didn't think it was in him, but I see that young Naselle has made hit in the literary line at last.

Diamonds—that so? What is the name of the word?

Smiley—Haven't you heard? He is the author of the latest thing in college yell—Judge.

### Keeps Blood Moving Drives Out Impurities

True to Nature in Its Action and Welcome to the Stomach.

All is Motion Throughout the Universe.

If there are signs of blood impurities he using S. S. S. at once. The wonderful blood purifier is all action. It starts the motion of all blood vessels in the body, and throughout the body. Everything is kept on the move, flushes your blood, gives you entire blood circulation, and makes you feel well. It removes all the dead tissue, and in a twinkling irrigates every atom in your body. It comes into every cell, causes every bone, muscle, ligament, tendon, nerve, surface, and every organ to thrill with freedom, with health, with new springiness.

For private, personal advice on stubborn disorders, consult the experts at the Swift Medical Co., 222 Swift Building, Atlanta, Ga. Their medical department is famous on all blood diseases, and is employed to make personal blood tests, approved by the highest medical authorities. Get a bottle of S. S. S. today.
